

## Press Release

Structural growth drives excellent start to the new fiscal year

- Q1 FY 2017: Revenue €1,645 million; Segment Result €246 million; Segment Result Margin 15.0 percent; earnings per share €0.14 (basic and diluted); adjusted earnings per share €0.17 (diluted)
- Outlook for Q2 FY 2017: Quarter-on-quarter revenue increase of 5 percent, plus or minus 2 percentage points, with Segment Result Margin of 15 percent at mid-point of revenue guidance
- Outlook for FY 2017 unchanged: Based on an assumed exchange rate of US\$1.10 to the euro, year-on-year revenue growth of around 6 percent, plus or minus 2 percentage points, and Segment Result Margin of 16 percent at midpoint of revenue guidance

Neubiberg, Germany, February 2, 2017 – Infineon Technologies AG today reported results for the first quarter of the 2017 fiscal year (period ended December 31, 2016).

"We had a good start into the new fiscal year," stated Dr. Reinhard Ploss, CEO of Infineon. "In the first quarter revenue and earnings were better than expected, driven in particular by strong demand for our components for automotive electronics and MOSFET power transistors. We expect to achieve further growth in our markets during the coming months and, based on the long-term trends, also remain optimistic about the future. We confirm our forecast for the current fiscal year: higher revenue, earnings and margin."

#### Review of Group financials for the first quarter of the 2017 fiscal year

Compared with the preceeding three-month period, Infineon Group <u>revenue</u> fell by 2 percent from €1,675 million to €1,645 million in the first quarter of the 2017 fiscal year. Whereas revenue in the Power Management & Multimarket (PMM) and Industrial Power Control (IPC) segments decreased due to seasonal factors, revenue generated by the Automotive (ATV) segment continued to rise. Revenue reported by the Chip Card & Security (CCS) segment was unchanged compared with the previous quarter.

The first-quarter gross margin finished at 36.0 percent, compared with 36.3 percent three months earlier. The first-quarter figures included acquisition-related depreciation

and amortization as well as other expenses attributable to the International Rectifier acquisition totaling €25 million. The adjusted gross margin came in at 37.6 percent, slightly down from 37.7 percent for the preceding three-month period.

<sup>&</sup>lt;sup>1</sup> The calculation for earnings per share is based on unrounded figures.

<u>Segment Result</u> was 12 percent lower quarter-on-quarter, decreasing from €280 million to €246 million. The <u>Segment Result Margin</u> for the first quarter was 15.0 percent, compared with 16.7 percent in the final quarter of the 2016 fiscal year.

The <u>non-segment result</u> was a net loss of €62 million, compared with a net loss of €51 million in the previous quarter. Of the first-quarter figure, €26 million related to the cost of goods sold, €1 million to research and development expenses and €22 million to selling, general and administrative expenses. In addition, other operating income and other operating expenses amounted to a net expense of €13 million.

The non-segment result includes €46 million of depreciation and amortization charges arising in conjunction with the purchase price allocation and other expenses for post-merger integration measures relating to the acquisition of International Rectifier.

Operating income fell quarter-on-quarter from €229 million to €184 million. Income from continuing operations totaled €165 million, compared with €228 million one quarter

<sup>&</sup>lt;sup>2</sup> The reconciliation of net income to adjusted net income and adjusted earnings per share is presented on page 9.

<sup>&</sup>lt;sup>3</sup> The reconciliation of cost of goods sold to adjusted cost of goods sold and adjusted gross margin is presented on page 10.

- 3 -

earlier. The <u>loss from discontinued operations</u> amounted to €4 million, compared with the previous quarter's loss of €3 million. <u>Net income</u> decreased from €225 million to €161 million, whereby the fourth quarter of the 2016 fiscal year included a tax income of €15 million and the first quarter of the current fiscal year a tax expense of €2 million.

Earnings per share for the first quarter amounted to €0.14, down from €0.20 one quarter earlier (in each case basic and diluted). Adjusted earnings per share¹ (diluted) amounted to €0.17, compared with €0.21 in the previous quarter. For the purpose of calculating adjusted earnings per share (diluted), a number of items are eliminated, most notably acquisition-related depreciation/amortization and other expenses (net of tax) as well as changes in valuation allowances on deferred tax assets.

<u>Investments</u> – which Infineon defines as the sum of purchases of property, plant and equipment, purchases of intangible assets and capitalized development assets – totaled €204 million in the first quarter of the current fiscal year, compared with €277 million in the fourth quarter of the 2016 fiscal year. <u>Depreciation and amortization</u> decreased slightly from €203 million to €200 million.

First-quarter <u>free cash flow</u><sup>2</sup> from continuing operations was a negative amount of €39 million, compared with a positive amount of €169 million in the preceding quarter. Free cash flow for the first quarter of the 2016 fiscal year includes a net cash outflow of €112 million arising in conjunction with the acquisition of a 93 percent equity stake in MoTo Objekt Campeon GmbH & Co. KG (MoTo), the owner and lessor of the Campeon office complex, Infineon's headquarters. Net cash provided by operating activities from continuing operations amounted to €282 million, compared with the previous quarter's €447 million.

Infineon's gross cash position stood at €2,209 million at December 31, 2016, compared with €2,240 million at September 30, 2016. The <u>net cash position</u> decreased over the three-month period from €471 million to €166 million, mainly reflecting the abovementioned acquisition and consolidation of MoTo.

<u>Provisions and payables</u> relating to Qimonda decreased slightly from €32 million at September 30, 2016 to €31 million at December 31, 2016. Provisions included in this

<sup>2</sup> For definitions and the calculation of free cash flow and of the gross and net cash position, please see page 12.

<sup>&</sup>lt;sup>1</sup> Adjusted net income and adjusted earnings per share (diluted) should not be seen as a replacement or superior performance indicator, but rather as additional information to the net income and earnings per share (diluted) determined in accordance with IFRS. The detailed calculation of adjusted earnings per share is presented on page 9.

amount were originally recognized for litigation costs in conjunction with claims made by the Qimonda insolvency administrator and for residual liabilities related to Qimonda Dresden GmbH & Co. OHG.

## Outlook for the second quarter of the 2017 fiscal year

In the second quarter of the 2017 fiscal year, Infineon expects a quarter-on-quarter revenue increase of 5 percent, plus or minus 2 percentage points. This forecast is based on an assumed exchange rate of US\$1.10 to the euro. At the mid-point of revenue guidance, the Segment Result Margin is expected to come in at 15 percent.

#### Outlook for the 2017 fiscal year reaffirmed

Based on an assumed exchange rate of US\$1.10 to the euro, Infineon continues to forecast <u>revenue</u> growth for the 2017 fiscal year of around 6 percent, plus or minus 2 percentage points, and a <u>Segment Result Margin</u> of 16 percent at the mid-point of revenue guidance. The ATV segment is expected to grow at a substantially faster rate than the Group average. Growth in the IPC segment is forecast to be roughly in line with or slightly higher than the Group average. The PMM and CCS segments are both expected to report growth rates below the Group average.

Investments in property, plant and equipment, intangible assets and capitalized development costs in the region of €950 million are planned for the 2017 fiscal year. The figure includes approximately €35 million for a new office building at Infineon's headquarters in Neubiberg near Munich. Excluding investments in the new office building, the ratio for investments as a percentage of revenue (at the mid-point of revenue guidance for the 2017 fiscal year) is forecast at approximately 13 percent.

Depreciation and amortization are expected to be in the region of €830 million.

Segment Result		(2)	-	(2)		2

<sup>&</sup>lt;sup>1</sup> Individual small product groups were transferred to other segments with effect from 1 October 2016. The previous year's figures have been adjusted accordingly.

<u>ATV segment revenue</u> increased by 2 percent to €705 million in the first quarter of the 2017 fiscal year, compared with €691 million in the preceding quarter. Continued high demand for driver assistance systems and products deployed in hybrid and electric vehicles more than offset slightly lower demand in other product lines related to the seasonal development. <u>Segment Result</u> increased from €112 million in the fourth quarter to €114 million in the first quarter of the current fiscal year, leading to a constant <u>Segment Result Margin</u> of 16.2 percent.

The <u>IPC Segment</u> recorded <u>revenue</u> totaling €264 million in the first quarter of the new fiscal year. Compared with the figure of €279 million reported for the preceding three-month period, this represented a decrease of 5 percent, mainly reflecting lower revenue from products for electric drives. Demand in the photovoltaic sector was also down due to seasonal factors, whereas revenue generated in wind power and major home appliances increased slightly. <u>Segment result</u> decreased from €37 million to €24 million quarter-on-quarter. The <u>Segment Result Margin</u> came in at 9.1 percent, compared with 13.3 percent one quarter earlier.

PMM segment revenue decreased from €533 million to €497 million, with the 7 percent decline mainly related to the seasonal decrease in demand for components for mobile devices. Business was slightly down for AC-DC conversion and slightly up for DC-DC conversion products. Segment Result fell from €100 million to €81 million compared with the previous quarter, resulting in a quarter-on-quarter decrease in Segment Result Margin from 18.8 percent to 16.3 percent.

CCS segment revenue for the three-month period remained flat at €174 million. Whereas security chips for payment cards saw a decrease, security solutions for government identification documents and SIM cards experienced rising demand.

Segment Result fell by €4 million from €33 million in the fourth quarter of the 2016 fiscal year to €29 million in the first quarter of the 2017 fiscal year. The Segment Result Margin amounted to 16.7 percent, down from 19.0 percent in the preceding quarter.

#### Analyst and press telephone conference

Infineon will host a telephone conference call for analysts and investors (in English only) on February 2, 2017 at 9:30 am (CET), 3:30 am (ET). During the call, the Infineon Management Board will present the Company's results for the first quarter of the 2017 fiscal year. In addition, the Management Board will host a telephone conference with the media at 11:00 am (CET), 5:00 am (ET). It can be followed over the Internet in both English and German. Both conferences will also be available live and for download on Infineon's website at <a href="https://www.infineon.com/investor">www.infineon.com/investor</a>.

The **Q1 Investor Presentation** is available (in English only) at: <a href="http://www.infineon.com/cms/en/corporate/investor/reporting/">http://www.infineon.com/cms/en/corporate/investor/reporting/</a>

#### **About Infineon**

Infineon Technologies AG is a world leader in semiconductor solutions that make life easier, safer and greener. Microelectronics from Infineon is the key to a better future. In the 2016 fiscal year (ending September 30), the Company reported sales of about €6.5 billion with some 36,300 employees worldwide. Infineon is listed on the Frankfurt Stock Exchange (ticker symbol: IFX) and in the USA on the over-the-counter market OTCQX International Premier (ticker symbol: IFNNY).

#### **Segment Revenues and Segment Results**

Infineon defines Segment Result as operating income (loss) excluding the following: the net amount of asset impairments and reversals thereof; impact on earnings of restructuring and closures; share-based compensation expense; acquisition-related depreciation/amortization and other expenses; gains (losses) on sales of assets, businesses, or interests in subsidiaries as well as other income (expense), including litigation costs.

## Reconciliation of Segment Result to Operating Income

Other income and expense, net	(12)	(4)	-				
Operating income	184	229	166				

## Reconciliation to adjusted earnings and adjusted earnings per share - diluted

Earnings per share in accordance with IFRS are influenced by amounts relating to purchase price allocations for acquisitions (in particular International Rectifier) as well as by other exceptional items. To enable better comparability of operating performance over time, Infineon computes adjusted earnings per share (diluted) as follows:

€in millions (unless otherwise stated)	3	months ende	d
	Dec 31, 16	Sep 30, 16	Dec 31, 15

## Reconciliation to adjusted cost of goods sold and gross margin

The cost of goods sold and the gross margin in accordance with IFRS are influenced by amounts relating to purchase price allocations for acquisitions (in particular International Rectifier) as well as by other exceptional items. To enable better comparability of operating performance over time, Infineon computes the adjusted gross margin as follows:

€in millions	3	3 months ended					
	Dec 31, 16	Sep 30, 16	Dec 31, 15				
Cost of goods sold	1,053	1,067	998

#### Consolidated Statement of Cash Flows

#### **Gross and Net Cash Position**

The following table reconciles the gross cash position and net cash position (i.e. after deduction of debt). Since some liquid funds are held in the form of financial investments, which, for IFRS purposes, are not considered to be "cash and cash equivalents", Infineon reports on its gross and net cash positions in order to provide investors with a better understanding of Infineon's overall liquidity. The gross and net cash positions are determined as follows from the Consolidated Statement of Financial Position:

€in millions	Dec 31, 16	Sep 30, 16	Dec 31, 15
Cash and cash equivalents	634	625	651
Financial investments	1,575	1,615	1,343
Gross cash position	2,209	2,240	1,994
Less:			
Short-term debt and current maturities of long-term debt	29	17	11
Long-term debt	2,014	1,752	1,779
Total debt	2,043	1,769	1,790
Net cash position	166	471	204

#### Free Cash Flow

Infineon reports the free cash flow figure, defined as net cash provided by and/or used in operating activities and net cash provided by and/or used in investing activities, both from continuing operations, after adjusting for cash flows related to the purchase and sale of financial investments. Free cash flow serves as an additional performance indicator, since Infineon holds part of its liquidity in the form of financial investments. This does not mean that the free cash flow calculated in this way is available to cover other disbursements, since dividend, debt-servicing obligations and other fixed disbursements are not deducted. Free cash flow should not be seen as a replacement or superior performance indicator, but rather as an additional useful piece of information over and above the disclosure of the cash flow reported in the Consolidated Statement of Cash Flows, and as a supplementary disclosure to other liquidity performance indicators and other performance indicators derived from the IFRS figures. Free cash flow includes only amounts from continuing operations, and is derived as follows from the Consolidated Statement of Cash Flows:

€in million	3 months ended			
	Dec 31, 16	Sep 30, 16	Dec 31, 15	
Net cash provided by (used in) operating activities from continuing operations	282	447	175	
Net cash provided by (used in) investing activities from continuing operations	(268)	(422)	(178)	
Purchases of (proceeds from sales of) financial investments, net	(53)	144	3	
Free Cash Flow	(39)	169	0

#### DISCLAIMER

This press release is a Quarterly Group Statement according the Frankfurt Stock Exchange's stock exchange regulation 51 paragraph a.

This press release contains forward-looking statements about the business, financial condition and earnings performance of the Infineon Group.

These statements are based on assumptions and projections resting upon currently available information and present estimates. They are subject to a multitude of uncertainties and risks. Actual business development may therefore differ materially from what has been expected.

Beyond disclosure requirements stipulated by law, Infineon does not undertake any obligation to update forward-looking statements.

Due to rounding, numbers presented throughout this press release and other reports may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.
